Learning Toolbox

for ePosters at AMEE 2020

created by Kubify

What we will cover today

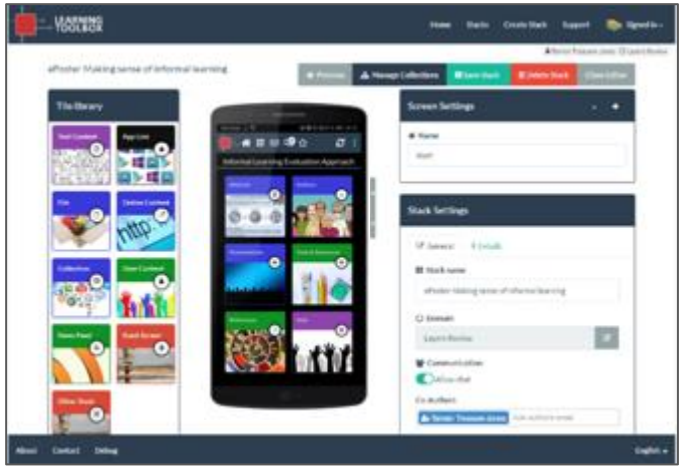
- How Learning Toolbox is being used at AMEE 2020
- What is special about a Learning Toolbox ePoster/stack
- Exploring some example ePosters
- Creating an ePoster/stack
- Further support available
- Deadline dates
- Anything else?

What is a Learning Toolbox stack?

A Learning Toolbox stack is a collection of materials you choose to present to and share with others.

AMEE 2020 is using these stacks as ePosters.

Key steps

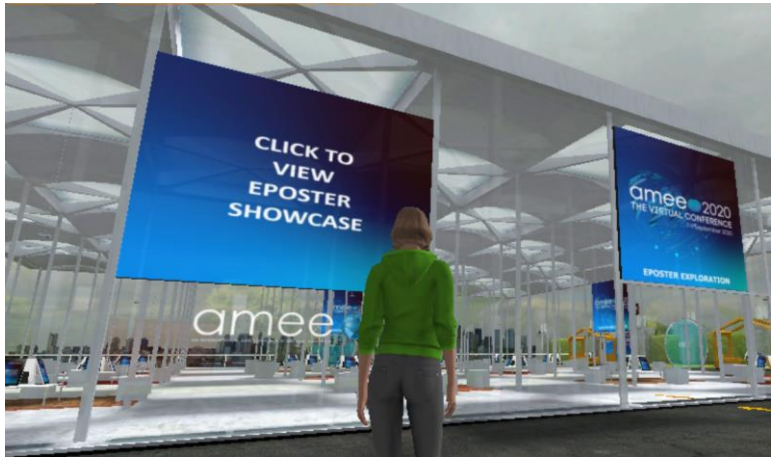


1

You create/collate your stack in Learning Toolbox

2

It is published to the ePoster Showcase



3

The ePosters can be explored in the ePoster Exploration room in the Virtual Conference

What can you include?

How do people view your ePoster/stack?

Viewable across platforms/devices – in web browser or in app

Engaging with ePosters in the Virtual Conference

Support – tailored emails

This is an opportunity to create a great resource that you can use to showcase your work both at Future Physiology 2020 and beyond. We're really looking forward to seeing what you create!

Getting Started

Earlier today you should have received an invitation email from Learning Toolbox. **Please click on the invitation link in that email** as soon as possible. If you did not get that email then please check your spam/junk/clutter email folders in case it has been filed in there. If you are presenting multiple ePosters then you will have received multiple invitation emails. You should click on and follow the link in each email to activate that invite.

If you will not be creating the ePoster/Stack yourself for an accepted abstract then please forward that invitation email and this welcome email onto your co-author who will be making the ePoster/Stack. Please also ask your co-author to email us (support@stack.services) so that we can add them to this support mailing list.

Webinar recording now online

Thank you to everyone who took part in the ePosters @ AMEE 2019 webinar on 6th June. It was great to meet you all!

The recording of the webinar and a copy of the presentation used is now available on the ePosters support page.

The webinar covers the same topics as questions 1-3 on the support page, as well as introducing the important dates for AMEE. You can also find the **important dates** listed on the support page.

Please remember that you need to set up a Learning Toolbox account by clicking on the invite link in the welcome email you were sent, before you start to make your own ePoster.

We hope you find the webinar and other support videos useful and enjoy creating your own ePosters. Please do contact us if you have any questions.

ePosters beyond the Showcase

Thank you to everyone for creating such great ePosters for the Dentistry Academy of Distinguished Educators Showcase 2020. We were very impressed by your creative designs and we hope you will continue to use your ePosters to share and discuss your work after the conference.

Your ePoster beyond the conference

You can continue to use your ePoster after the conference to give others a rich overview of your work. You can even edit and update it, if the discussions at the conference led to new ideas for what to include. Alternatively if you do not want your ePoster to be viewable after the Showcase then you can simply change the access permissions and make it private again.

You might find these FAQ answers helpful:

- How do I favourite my ePoster in the app for easy access
- How can I share my ePoster - face to face
- How can I share my ePoster - from my computer
- How can I download my mini-poster for printing
- How can I change access permissions on my ePoster

If you have any questions for us about this or any other aspect of continuing to use your ePosters then do email us at support@stack.services

We hope you enjoyed creating and exploring the ePosters.
