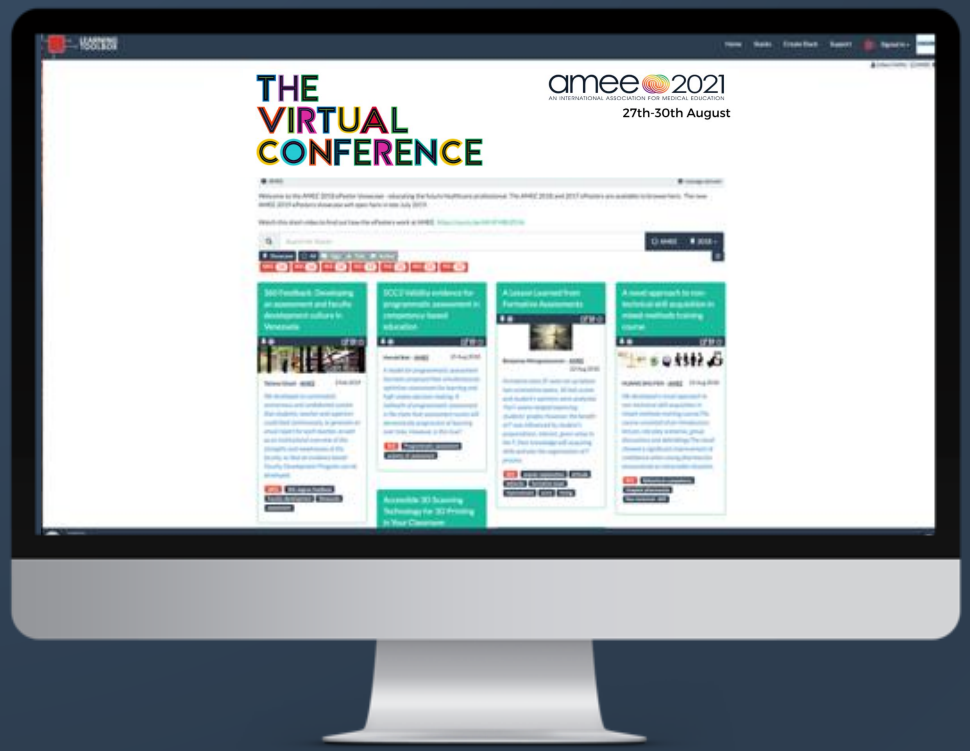
Learning Toolbox

for ePosters at AMEE 2021



created by Kubify

What we will cover today

- How Learning Toolbox is being used at AMEE 2021
- What is special about a Learning Toolbox ePoster/stack
- Exploring some example ePosters
- Creating an ePoster/stack
- Further support available
- Deadline dates
- Anything else?

What is a Learning Toolbox stack?

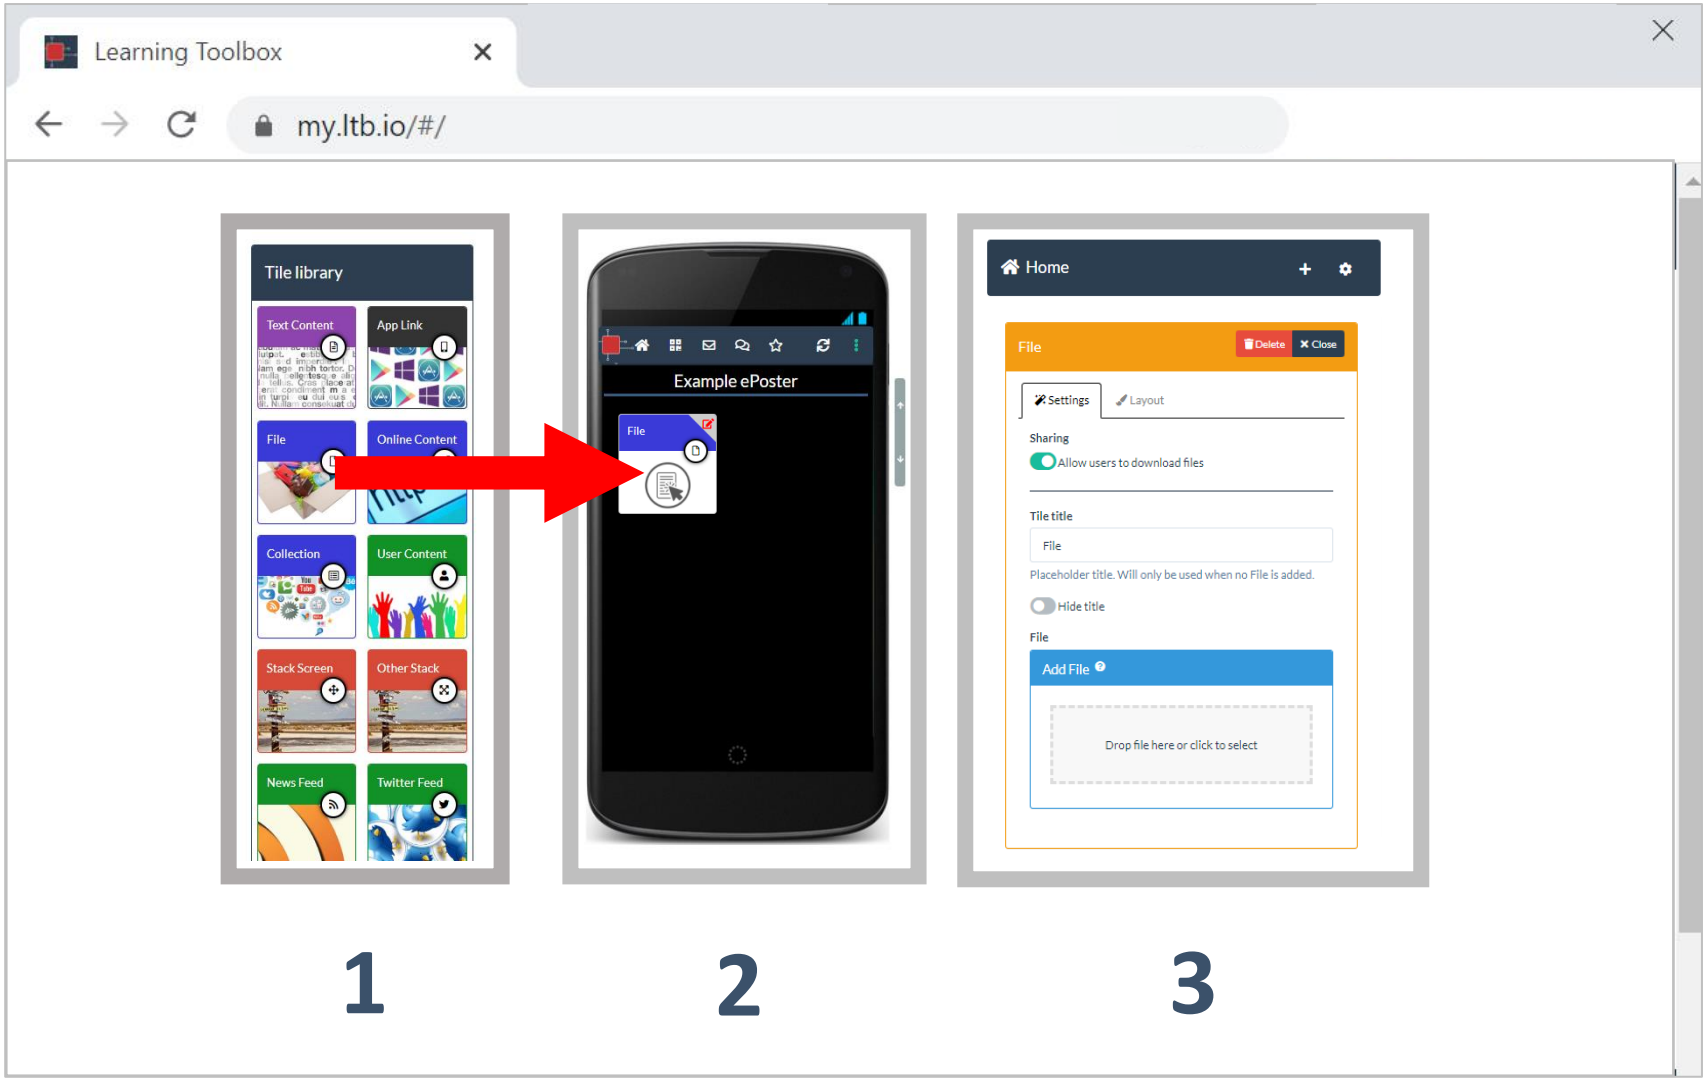
Learning Toolbox allows you to create a *collection* of materials (a *stack*) to present to and share your work.

AMEE 2021 is using these stacks as *ePosters*.

Stack = ePoster

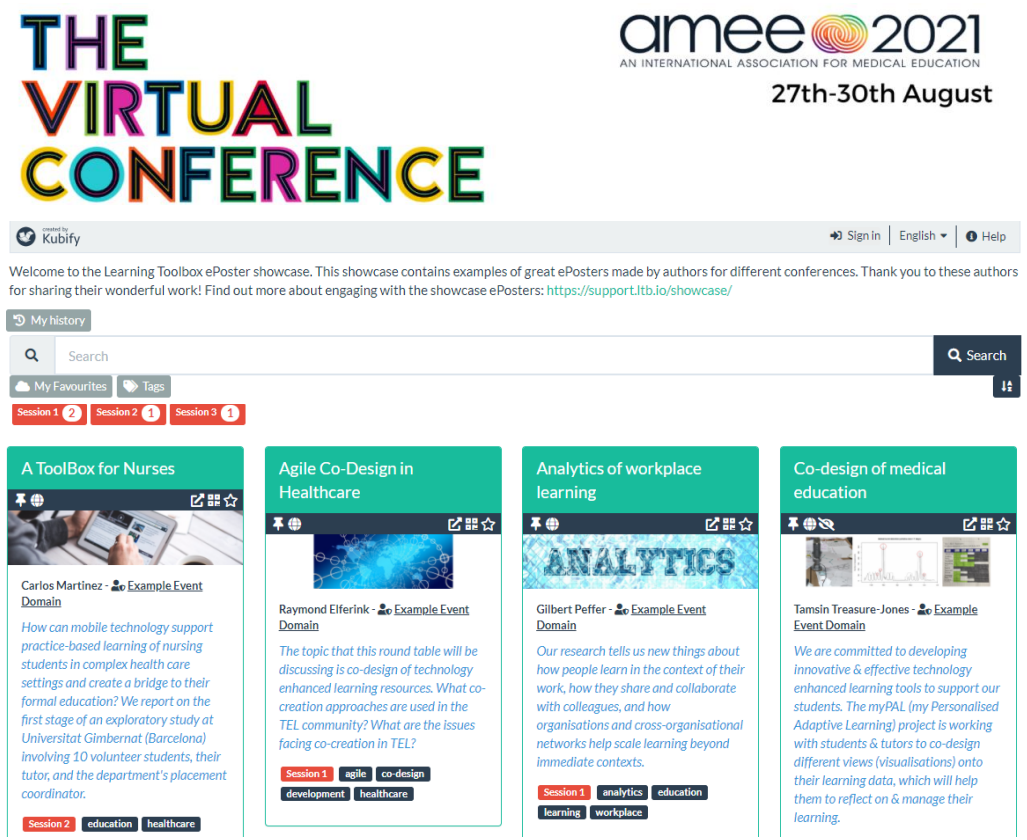
What can you include?

Making an ePoster/stack



The online editor allows you to add content to your ePoster/stack.

Viewing ePosters during the conference

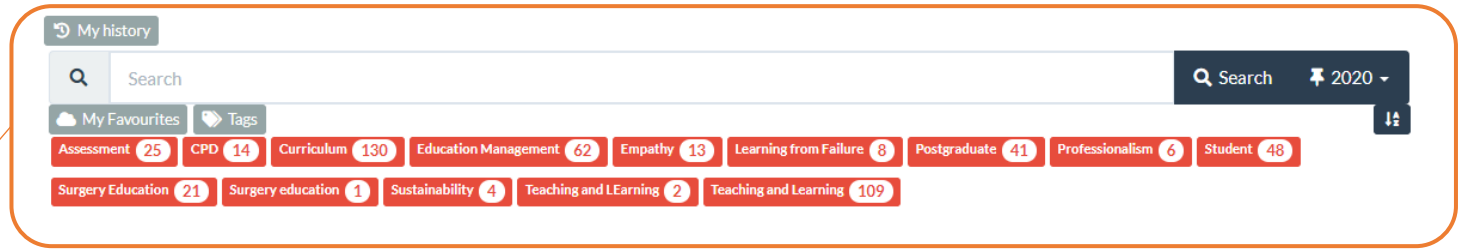


All the ePosters will be appear on the ePoster showcase within the conference platform.

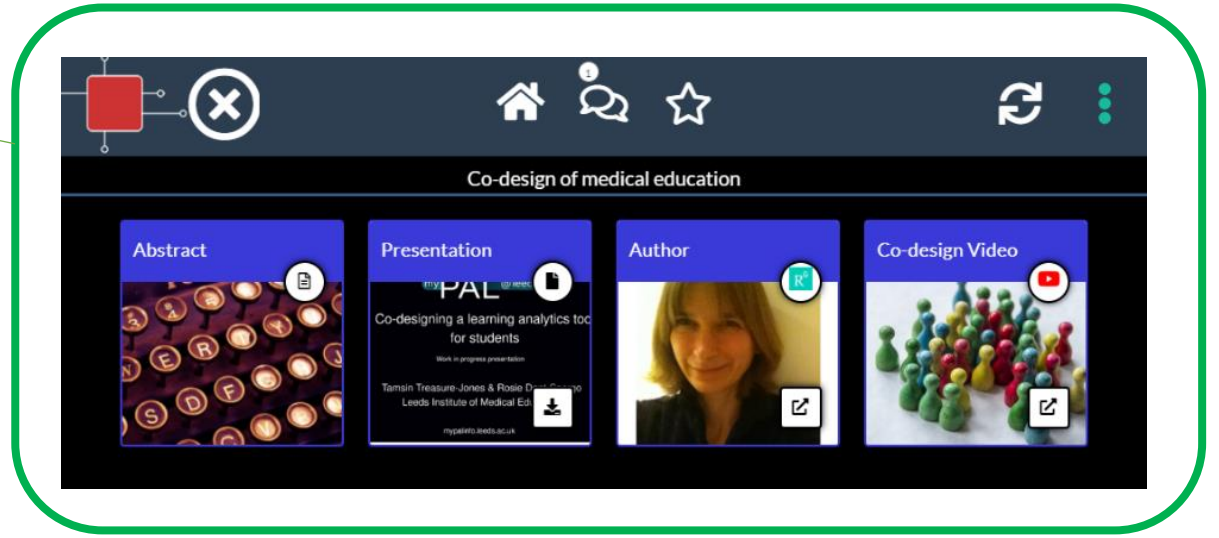
Delegates can browse, search for, open and explore the ePosters in this showcase throughout the conference.

Engaging with ePosters on the Showcase

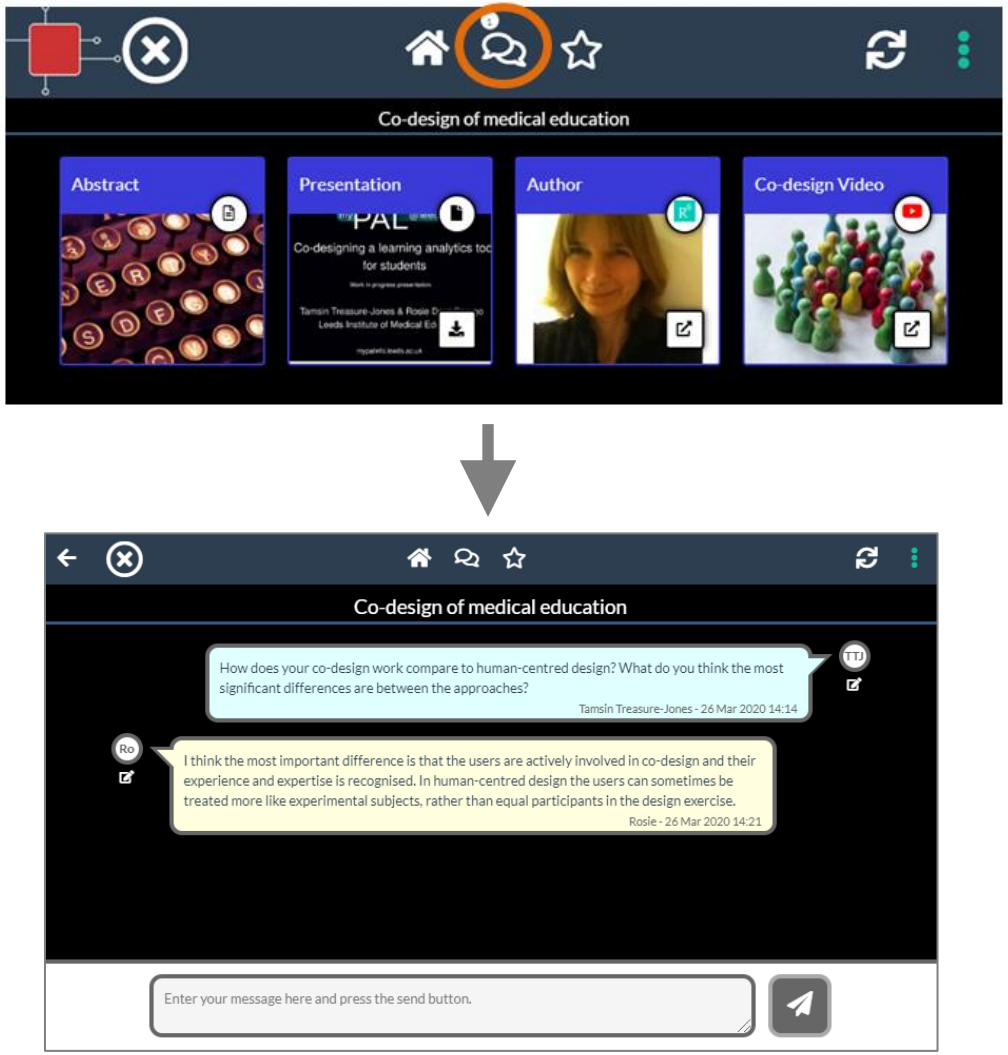
Search



View & Interact



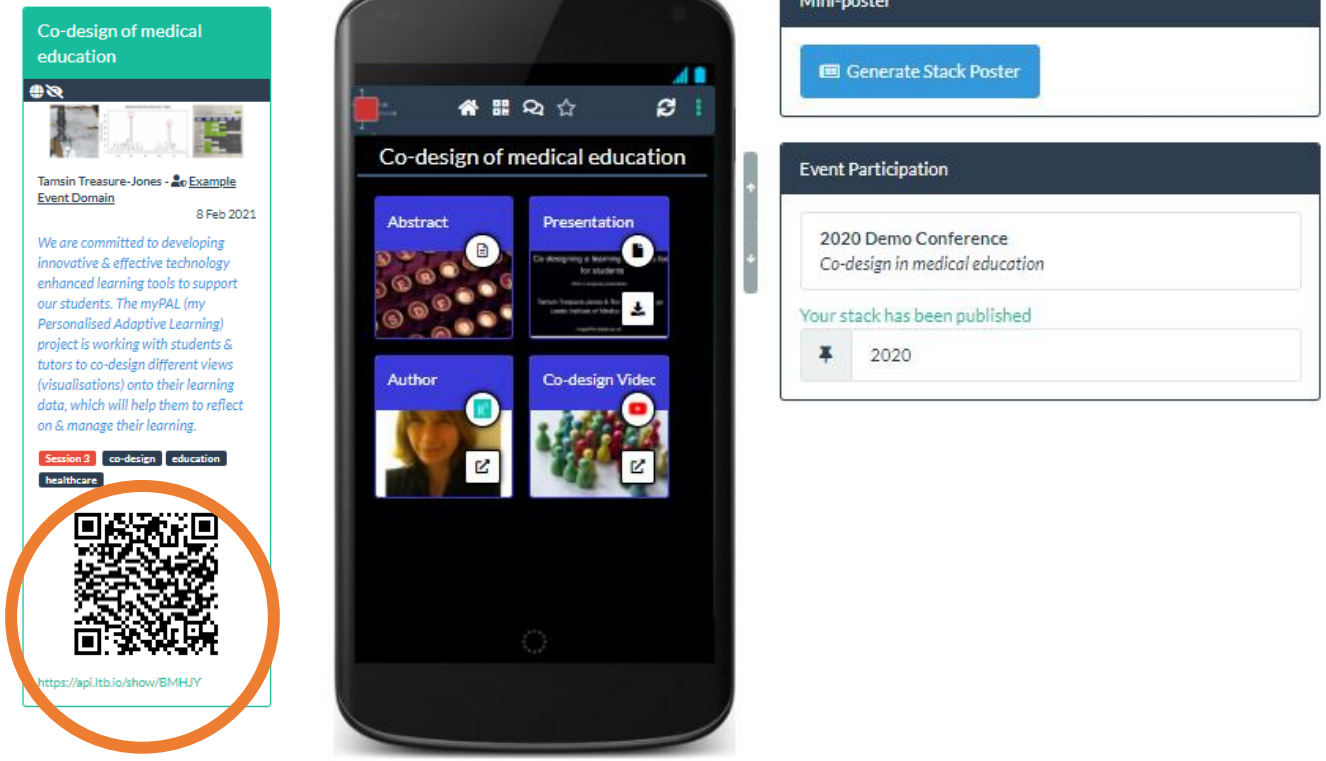
Connecting with your viewers – Chat



Your ePoster has its own chat channel.

Viewers of your ePoster (and you!) will be able to view and engage with this text chat.

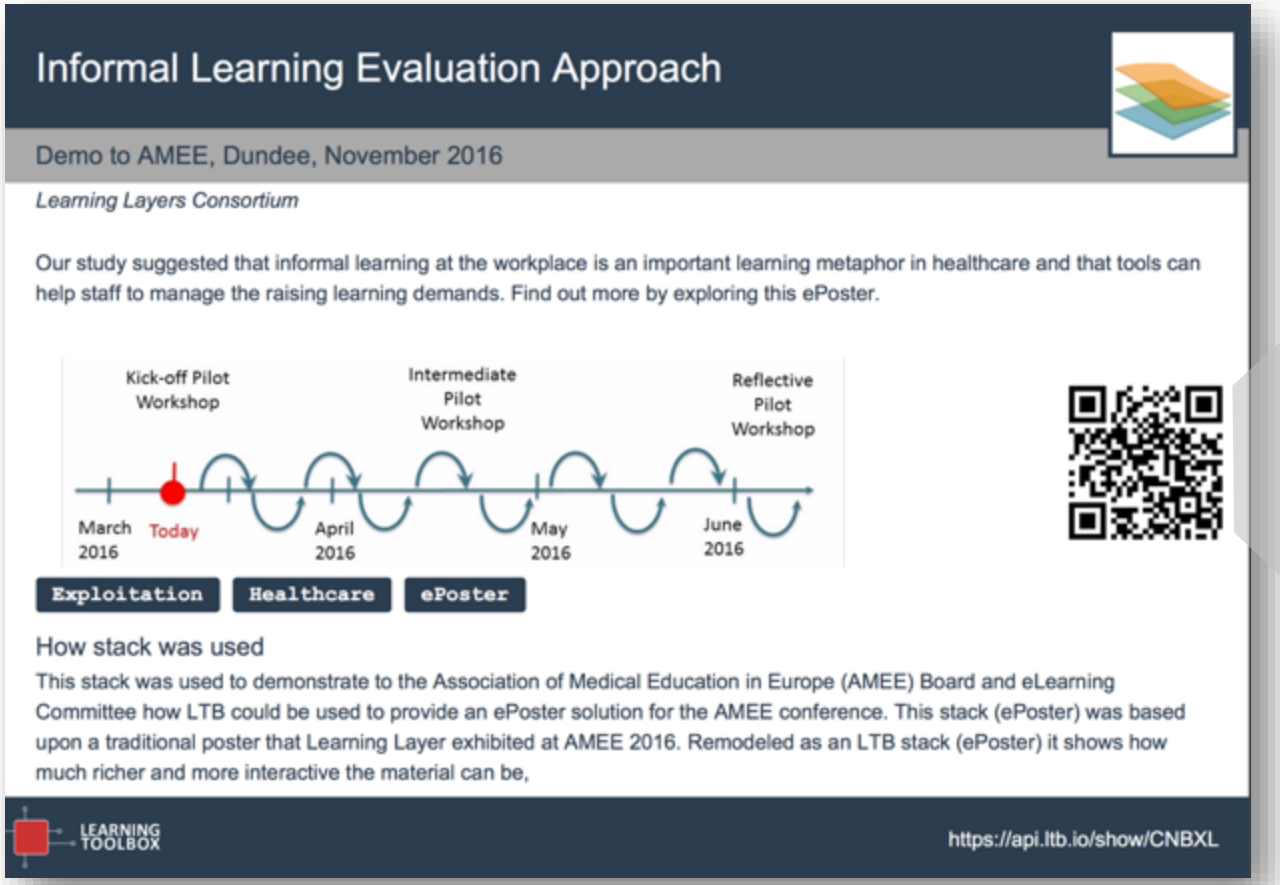
Sharing your ePoster with others



Your ePoster has its own unique web address and QR code.

You can use these to point people directly to your ePoster.

Promoting your ePoster beyond the conference



The mini-poster

Your ePoster

The mini-poster – advert & gateway

Promoting your ePoster beyond the conference

Poster in your pocket

Summary – some key benefits

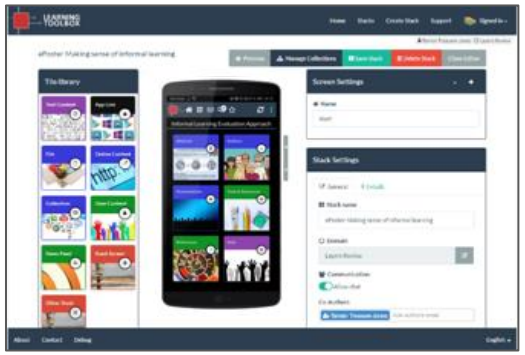
- Richer content
- Discussion attached
- Available throughout the conference
- Updateable
- Can continue to use after the conference

Key steps

Consider what content (presentations, videos, weblinks, documents) you have which presents and explains your work well. Gather that content together ready to include in your ePoster/stack.

1

Activate your invite link and create your account



2

Sign-in to [my.ltb.io](my.ltb.io) and create your ePoster/stack

3

The administrator publishes the ePosters to the showcase

4

Delegates can explore & discuss your ePosters

Activating your invite link & creating your account

Dear Tamsin Treasure-Jones,

Congratulations on having your ePoster accepted for AMEE 2021!

Co-designing technology to support student learning

We're delighted that AMEE 2021 is again using Learning Toolbox for the conference ePosters.

Learning Toolbox allows you to create a collection of material (we call it a Stack) that can be used to present and share your work. At the simplest level you can just add a presentation to your Stack, but the platform allows you to do much more.

The **first** thing that you need to do is to follow the steps below to set-up your Learning Toolbox author account.

CLICK ON THIS INVITE LINK: https://api.ltb.io/show/i+ABISC **AND THEN**

Sign in with your Learning Toolbox account (if you already have one)
OR
Sign in with any of the listed social media accounts (if you choose to do this then this is the account you should always use when signing into Learning Toolbox)
OR
Create your own Learning Toolbox account. Click on "I don't have a Learning Toolbox account" and follow the instructions. You will be sent a validation email within a few minutes (check your spam or junk folder if you do not receive it)

We will send a separate email to you very soon including details of how the ePosters will work at AMEE 2021 and the support available to help you get started.

We hope you enjoy creating your ePoster and we look forward to seeing your work presented at AMEE 2021.

Best wishes,

Tamsin, Roxy, Gilbert, Joseph and Raymond

The AMEE 2021 ePoster Team

Support – tailored emails

This is an opportunity to create a great resource that you can use to showcase your work both at Future Physiology 2020 and beyond. We're really looking forward to seeing what you create!

Getting Started

Earlier today you should have received an invitation email from Learning Toolbox. **Please click on the invitation link in that email** as soon as possible. If you did not get that email then please check your spam/junk/clutter email folders in case it has been filed in there. If you are presenting multiple ePosters then you will have received multiple invitation emails. You should click on and follow the link in each email to activate that invite.

If you will not be creating the ePoster/Stack yourself for an accepted abstract then please forward that invitation email and this welcome email onto your co-author who will be making the ePoster/Stack. Please also ask your co-author to email us (support@stack.services) so that we can add them to this support mailing list.

Webinar recording now online

Thank you to everyone who took part in the ePosters @ AMEE 2019 webinar on 6th June. It was great to meet you all!

The recording of the webinar and a copy of the presentation used is now available on the ePosters support page.

The webinar covers the same topics as questions 1-3 on the support page, as well as introducing the important dates for AMEE. You can also find the **important dates** listed on the support page.

Please remember that you need to set up a Learning Toolbox account by clicking on the invite link in the welcome email you were sent, before you start to make your own ePoster.

We hope you find the webinar and other support videos useful and enjoy creating your own ePosters. Please do contact us if you have any questions.

ePosters beyond the Showcase

Thank you to everyone for creating such great ePosters for the Dentistry Academy of Distinguished Educators Showcase 2020. We were very impressed by your creative designs and we hope you will continue to use your ePosters to share and discuss your work after the conference.

Your ePoster beyond the conference

You can continue to use your ePoster after the conference to give others a rich overview of your work. You can even edit and update it, if the discussions at the conference led to new ideas for what to include. Alternatively if you do not want your ePoster to be viewable after the Showcase then you can simply change the access permissions and make it private again.

You might find these FAQ answers helpful:

- How do I favourite my ePoster in the app for easy access
- How can I share my ePoster - face to face
- How can I share my ePoster - from my computer
- How can I download my mini-poster for printing
- How can I change access permissions on my ePoster

If you have any questions for us about this or any other aspect of continuing to use your ePosters then do email us at support@stack.services

We hope you enjoyed creating and exploring the ePosters.

Providing regular guidance & reminders

Second webinar 9th August

Focus on engaging with the ePosters during the conference

ePoster support – help desk within Virtual Conference

Online support for authors & delegates

Important dates

- **9th August** Webinar 2 – Engaging with the ePosters
