

NASS2023
LOS ANGELES, CA | OCT. 18-21

Good Afternoon,

The NASS 2023 Annual Meeting is fast approaching and we want to make sure you are prepared for your RapidFire ePoster Presentation!

New in 2023!

Your ePoster has been selected for our inaugural RapidFire ePoster Presentation sessions. As a presenting author, this email will help answer any questions you may have on how these presentations will function:

1. Each presenter will have 3 minutes to present your work in this fun, fast-paced atmosphere.
 - A digital timer will be at the podium to keep you aware of your 3 minute presentation limit.
 - Once the 3 minutes is up, your presentation is complete and the moderator will proceed with the next presenter.
2. There is no designated Q&A time however, your [Learning Toolbox](#) ePoster stacks feature a direct attendee-author chat function, so you still have ample opportunity to interact with your colleagues.
 - All mini posters will be located near the Red Theater so feel free to stand by your poster at any time throughout the week.
3. You can review your final PowerPoint presentation and see your full Annual Meeting schedule inside your [Speaker Portal](#).
 - Presentations can also be reviewed onsite at the Speaker Information Center during the Annual Meeting.
 - Changes to presentations will **NOT** be permitted.

Feel free to explore the 2023 NASS Annual Meeting site [HERE](#) for exciting events, exhibitors, and overall logistics.

Thank you for your participation, and I look forward to seeing you next week at the 38th Annual Meeting in Los Angeles!

Please don't hesitate to reach out if you have any questions.

Best Regards,
Brittany
