3. Networking – it supports sharing and connecting with others

Easy to show and share
wherever you are

Four key benefits of making an ePoster for APT

3. Networking – it supports sharing and connecting with others

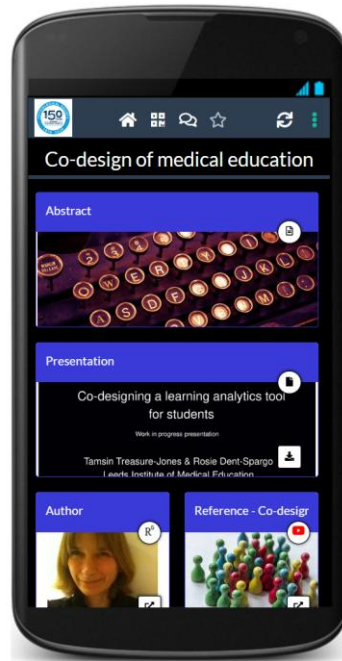

A dedicated chat space is part of each ePoster

4 key benefits of making an ePoster for APT

4. You can continue to use it beyond the conference

Your ePoster stack is editable, viewable and shareable for at least one year after the conference.

So, you can continue to use it to promote and share your work with others
– your colleagues, your students, your wider network.

4 key benefits of making an ePoster for APT

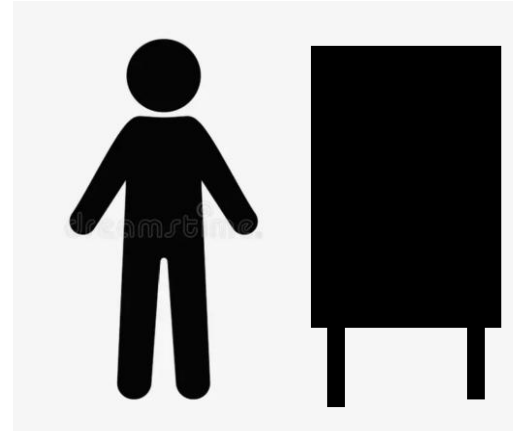

1. You can choose to showcase and **share whatever you want**
2. It gives your work **higher visibility** at the conference
3. **Networking** – it supports sharing and connecting with others
4. You can continue to **use it beyond the conference**

How the ePosters will work at ATP

How the ePosters will work at ATP

Who can make an ePoster?

- Poster presenters
- Oral presenters

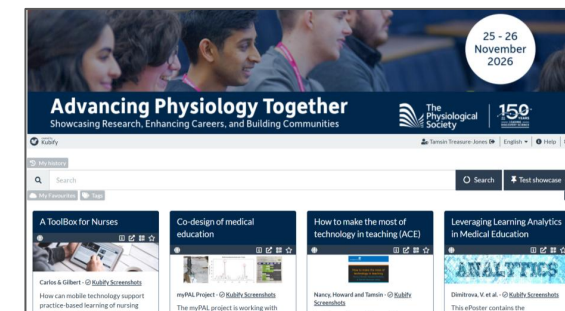

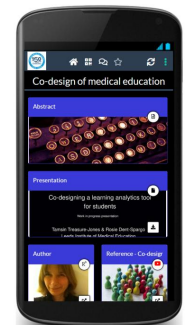

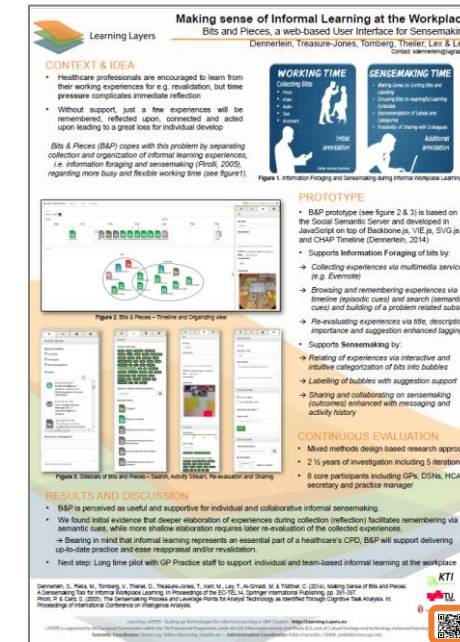

Onsite posters and ePosters

You will make your printed poster as normal.

But you can also create an ePoster. This could contain your poster file and any other material (multimedia or online) that you'd like to showcase and share.

You could add your ePoster's QR code to your printed poster.

Your ePoster will also be published to the ePoster showcase.
So your work will be available throughout the conference and beyond, not just during the onsite poster sessions.

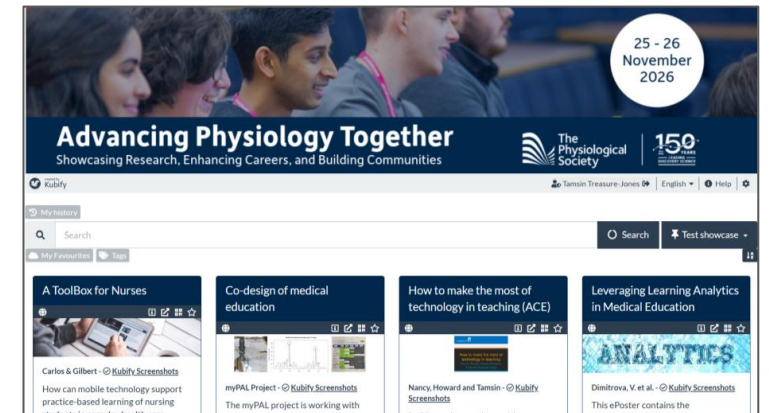

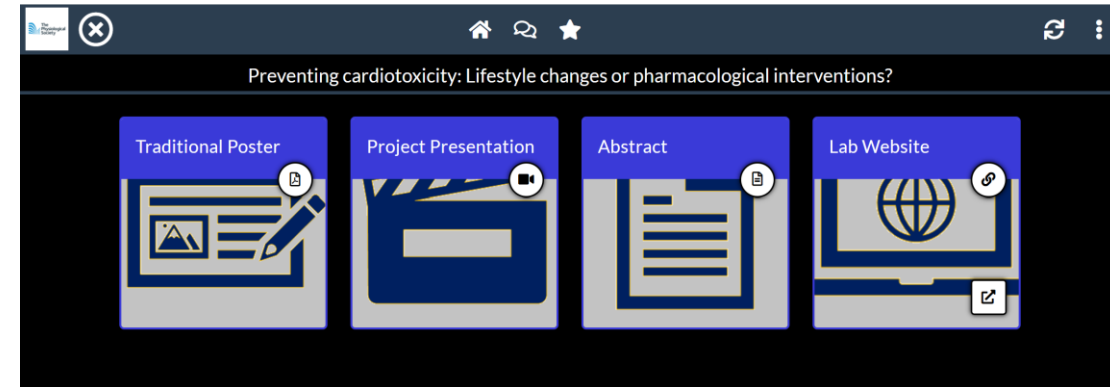

Online posters and ePosters

Online poster authors must create an ePoster using Kubify's Learning Toolbox. But you do not need to make or print a paper poster.

Your ePoster can contain whatever material you want to showcase and share to explain your work.

Your ePoster will be published to the ePoster showcase. So, your work will be available throughout the conference and beyond.

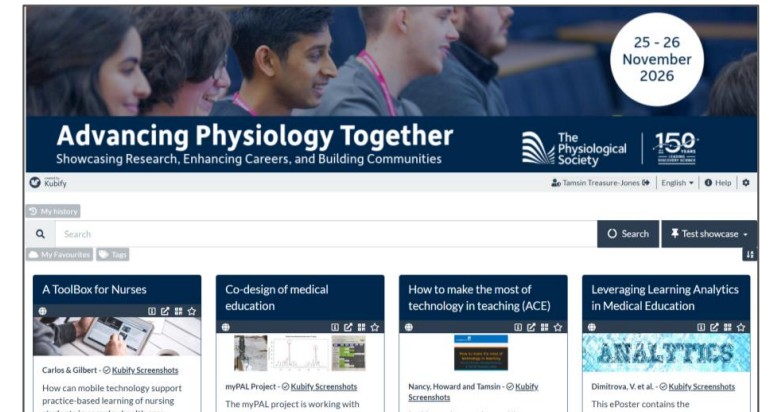

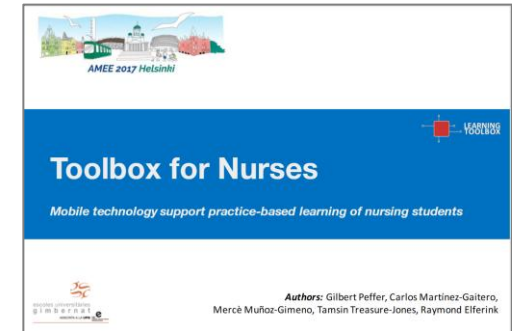

Onsite and online oral presenters and ePosters

You will give your oral presentation as normal.

But you can also create an ePoster. This could contain your presentation file and any other material (multimedia or online) that you'd like to share.

Your ePoster will be published to the ePoster showcase. So your work will be available throughout the conference and beyond, not just during your scheduled presentation slot.

Creating your ePoster stack

Activating your invite link & creating your account

Dear Tamsin Treasure-Jones,

Congratulations on having your ePoster accepted for Conference!

Your ePoster title

Conference is using a new and interactive approach to the posters, based around the use of the Learning Toolbox platform.

Learning Toolbox allows you to create and arrange a collection of material (we call it a Stack) that can be used to present and share your work. At the simplest level you can just add a presentation to your Stack, but the platform allows you to do much more.

The first thing that you need to do is to follow the steps below to activate your invite and set-up your Learning Toolbox author account.

CLICK ON THIS INVITE LINK: <https://api.ltb.io/join/i+ABLKM> AND THEN

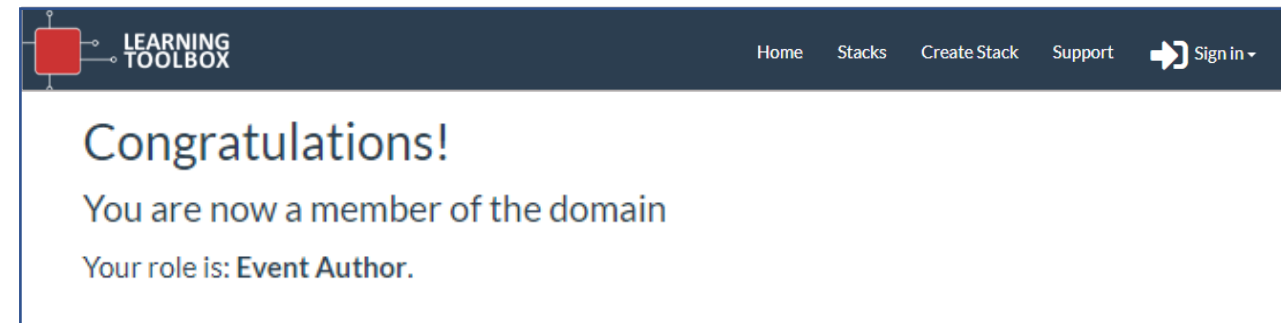

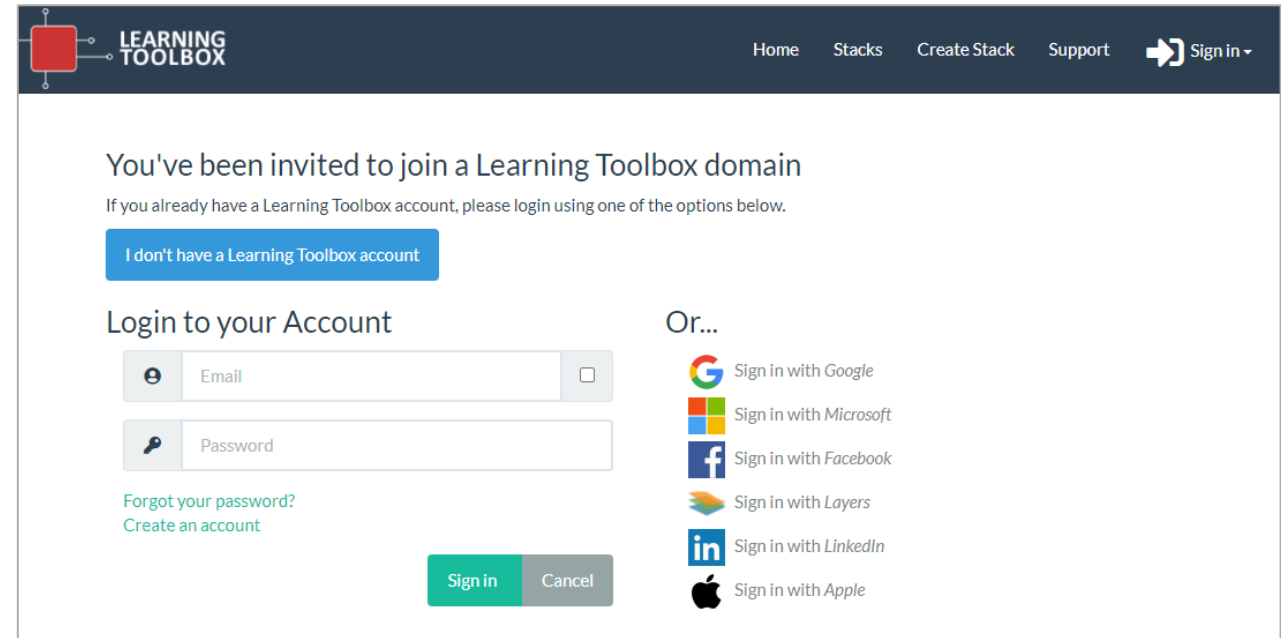

Sign in with your Learning Toolbox account (if you already have one)

OR

Sign in with any of the listed social media accounts

OR

Create your own Learning Toolbox account. Click on "I don't have a Learning Toolbox account" and follow the instructions. You will be sent a validation email within a few minutes (check your spam or junk folder if you do not receive it)

Creating your ePoster stack

Sign in to Learning Toolbox using the account you created.

<https://my.ltb.io>

Key steps

Consider what content (presentations, videos, weblinks, documents) you have which presents and explains your work well. Gather that content together ready to include in your ePoster stack.

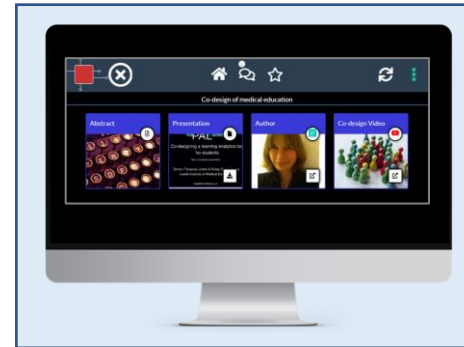

1

Activate your **invite link** and **create your account**

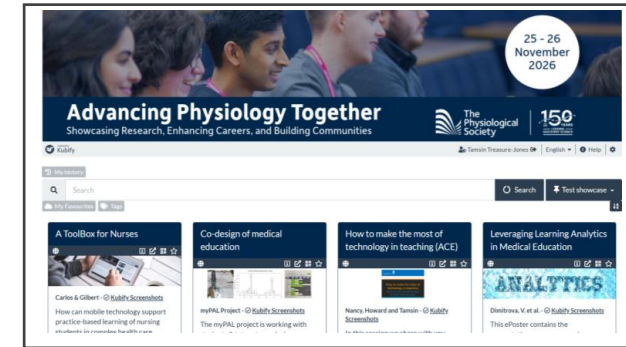

2

Sign-in to my.ltb.io and **create your ePoster stack**

3

Preview and check your ePoster stack then **mark it as ready**

4

We will publish your ePoster stack to the showcase so that delegates can access it
